

-
- A circular phylogenetic tree of *Burkholderia pseudomallei* strains. The tree is divided into 12 sectors, each representing a different geographic region or study. The sectors are color-coded: grey for most regions, blue for *Burkholderia pseudomallei* 2002/134299, green for *Burkholderia pseudomallei* NCTC 20147, and white for *Burkholderia pseudomallei* 11. The tree shows the genetic relationships between various strains, with labels indicating the strain name and its source or study. The central node is labeled '1'.
- | Strain Name | Region/Study |
|--|--------------|
| <i>Burkholderia pseudomallei</i> 2002/134299 | Thailand |
| <i>Burkholderia pseudomallei</i> NCTC 20147 | Thailand |
| <i>Burkholderia pseudomallei</i> 11 | Thailand |
| <i>Burkholderia pseudomallei</i> 2002/134299 | Thailand |
| <i>Burkholderia pseudomallei</i> NCTC 20147 | Thailand |
| <i>Burkholderia pseudomallei</i> 11 | Thailand |
| <i>Burkholderia pseudomallei</i> 2002/134299 | Thailand |
| <i>Burkholderia pseudomallei</i> NCTC 20147 | Thailand |
| <i>Burkholderia pseudomallei</i> 11 | Thailand |
| <i>Burkholderia pseudomallei</i> 2002/134299 | Thailand |
| <i>Burkholderia pseudomallei</i> NCTC 20147 | Thailand |
| <i>Burkholderia pseudomallei</i> 11 | Thailand |
